

# MAKING THE IMPOSSIBLE POSSIBLE

## How organisations regain control in a world of overwhelming information

### THE PRESSURE OF CHANGE: AI IS RESHAPING WORK

AI is reshaping the way we work as **data volumes skyrocket**. Clients expect a reliable company view at any moment, making the real **challenge** not collecting data but **finding the signals in the noise** and turning them into one clear, coherent story.

### HARD DATA

340.294

deeds Belgian Official Gazette processed (2024)

1.115  
non-standard,  
manually  
encoded

655.637

annual accounts processed (2024)

11.179

bankruptcies in Belgium (2024)

### SOFT DATA

+4 million

news articles per year

+1 trillion

possible company x theme  
x sentiment combinations

### CONCLUSION: COMBINING AI WITH EXPERT JUDGMENT

By combining AI, verified hard data, and expert judgment, we create Belgium's highest-quality company information database. **AI processes the volume, analysts validate and add context**, and together they **deliver reliable insights** powering faster decisions, stronger risk management, and confidence in complex situations.
